

Our Mission

In celebration of its 20th year in business, Solvaria is calling upon its fellow members of Richmond's technology community to give back to the future of our industry. Our goal is to raise **\$1,000** for each year we've been in business in order to make a **\$20,000** donation to CodeVa. CodeVa is a nonprofit organization that, through advocacy, teacher training, and direct student programs, partners with schools, parents, and communities to bring equitable computer science education to all of Virginia's students.

What can CodeVa do with \$20,000?

- ◆ Train half of an entire cohort of high school teachers.
- ◆ Teach elementary school teachers to train other teachers in computer science education methods and tools. Each teacher impacts up to 1,200 students, and \$20,000 could impact 72,000 Virginia elementary school students.
- ◆ An entire summer of scholarships for afterschool programming, impacting up to 200 elementary school students – over half of which are girls.
- ◆ Expand summer programs out of school, providing programming for children using financial aid.
- ◆ Create a Computer Science Toolkit, available for an entire 13 school district region, providing teachers with classroom tools and materials that won't impact a school's budget.
- ◆ Outfit two entire classrooms with computers for afterschool programming and teacher training.
- ◆ Run the CodeVa Robotics Program for an entire year.
- ◆ Put "Virginia is for Computer Science Lovers" materials and literature in every classroom in Virginia.
